

60w solar photovoltaic panel

Are sunware solar panels a good choice?

SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so you can have the luxury of cool drinks and keep the essential equipment like the depth sounder running too. Not sure what panels you need?

Can a 60W solar panel power a caravan?

The 60w PV Logic solar panel is often seen on roads powering illuminated street signage and belisha beacons and is often a standard fit for caravan and campervan manufacturers alike. Delivering up to 390wh per day, the 60w panel is suitable for powering most DC and some AC appliances via a separately purchased inverter.

How much power does a rigid solar panel provide?

With power ratings from 5W to 200W, our rigid solar panels fulfil a variety of energy needs ranging from a continuous trickle feed of power to prevent battery drain in caravans, motorhomes and boats to creating energy self-sufficiency for off-grid travel.

Are German built solar panels good quality?

These German built solar panels are manufactured to the very highest quality standard of materials and workmanship. You have the assurance that each solar panel is individually tested to industry standards and is backed up by a 3 year warranty.

Why should you invest in sunware solar panels?

Food preserved and drinks cooled just as you want them. When you invest in SunWare solar panels you are plugging into a solar panel designed for marine environments and tough installation conditions. These German built solar panels are manufactured to the very highest quality standard of materials and workmanship.
