

Acquisition of energy storage battery manufacturers

What is the future of battery storage?

The US is leading the global race in the development of battery storage, with demand for BESS expected to increase sixfold by the end of the decade. Capacity is expected to almost double in 2024 to more than 30 GW, as development of energy storage projects accelerates in line with the rapid growth of variable solar and wind assets.

Who owns Blackstone battery energy storage system?

In Q4 2023, renewable energy company Octopus Investments Australia, which is majority owned by the UK-based Octopus Group, acquired the Blackstone Battery Energy Storage System. With an expected enterprise value of US\$514 million once operational, it is the largest proposed battery project in the state of Queensland.

Is the UK ready for the next big thing in battery storage?

The UK's battery storage capacity is projected to expand to 24 GW by 2030, attracting investments of up to US\$20 billion and accounting for 9 percent of global installation capacity. Major private investors are looking to the UK for the next big thing in battery storage.

What is a battery energy storage system?

Battery energy storage systems (BESS), which enable utility companies and grid operators to access pools of surplus renewable energy on demand that would otherwise be wasted, play a central role in the global energy transition.

How much money did energy storage companies make in 2022?

Corporate funding of energy storage companies exceeded US\$26 billion worldwide in 2022, a 55% jump from 2021's total US\$17 billion. Masdar acquires UK battery storage developer Arlington Energy October 26, 2022. Masdar has acquired battery storage developer Arlington Energy in a bid to expand its presence in UK and European renewables markets.

How many battery storage M&A deals were announced in 2023?

According to Inframotion, 227 battery storage M&A deals were announced in 2023, up 15.8 percent from the year before. These transactions were worth a combined US\$24.1 billion, nearly triple the value recorded in 2022. In both volume and value terms, 2023 represented a new dealmaking high for the subsector.

Meet the top innovators in the Battery Energy Storage System (BESS) market. Discover the companies that are setting new standards in energy storage technologies and transforming the ...
