Why should you buy a leapmotor C16?

The Leapmotor C16 offers two distinct powertrain configurations, catering to different driving needs and preferences: This dual approach gives buyers the flexibility to choose based on their driving habits. For urban dwellers who rarely travel long distances, the pure electric version offers excellent efficiency.

As the benchmark of the family and the brand's first product aimed at the mass market, has the driving experience of the Leapmotor C11 changed after this facelift? My feeling is: it's like a whole ...
