We are trading in - Base Oil N7, N85, N150, N300 Base oils are used to manufacture products including lubricating greases, motor oil and metal processing fluids. Different products require different compositions and properties in the oil. One of the most important factors is the liquid's viscosity at various temperatures. Whether or not a crude oil is suitable to be made into a base ...

Petroleum coke, abbreviated coke or petcoke, is a final carbon-rich solid material that derives from oil refining, and is one type of the group of fuels referred to as cokes. Petcoke is the coke that, in particular, derives from a final cracking process--a thermo-based chemical engineering process that splits long chain hydrocarbons of petroleum into shorter chains--that takes place ...

2 ASPO ENERGY LTD. ASPO ENERGY is a trading company which specialized in fuel, oil, gas and energy products trading across the globe. ... Kazakhstan, Azerbaijan, and Turkmenistan. The most important thing when grading this fuel is the sulphur content. 19 ASPO ENERGY LTD. Mazut. Quest Petroleum Diesel 50 PPM is a highly refined,

We are trading in - 10PPM Diesel ULSD is a D2 class diesel fuel material that results from a severe hydrofinishing process. This product is an Ultra-Low sulphur Diesel Fuel (ULSD) in line with EPA's new mandate of less than 15 ppm ...

ASPO ENERGY has diversified its business to trading in a wide spectrum of commodity products including crude oil, refined oil products, petrochemicals, natural gas, LNG, power, coal, carbon ...

We are trading in - Base Oil SN 500 Base oil SN 500 the most widely used base oil. SN 500 is a light grade base oil at the upper end of the specifications for Grade I base oils. They are mainly used in lubricant production is a Group I ...

We are trading in - Base Oil N70 Pure Performance 70N is a high purity, low viscosity paraffinic oil produced from a high-pressure hydrocracking and hydro-dewaxing process that removes virtually all metals, sulfur, and nitrogen from the feedstock. Customers purchase Pure Performance 70N for a wide variety of uses, including use as a process oil, ATF formulations, ...

We are trading in - Base Oil SN 3500 Base oil SN350, is defined as a light grade base oil in the middle of the

specifications of Grade I base oils. They are mainly used in lubricant and lubricant additives production. It has been solvent refined, dewaxed, and hydrogen treated to take out impurities. This oil has no impurities or compounds that can have an adverse effect on the ...

We are trading in - Base Oil N60 Base oils are used to manufacture products including lubricating greases, motor oil and metal processing fluids. Different products require different compositions and properties in the oil. One of the most important factors is the liquid's viscosity at various temperatures. Whether or not a crude oil is suitable to be made into a base oil is determined by ...

We are trading in - HSD2 50PPM Diesel Quest Petroleum Diesel 50 PPM is a highly refined, middle distillate, hydrocarbon fuel; and it contains less than 0.005% sulphur by mass. These extremely low sulphur levels enable the diesel to be compatible with emission control devices such as catalytic converters and diesel particulate traps. ApplicationsQuest Petroleum Diesel ...

Our Recommended - Oil Terminal Or Tank Farm An oil terminal (also called a tank farm, tankfarm, oil installation or oil depot) is an industrial facility for the storage of oil, petroleum and petrochemical products, and from which these products are transported to end users or other storage facilities. An oil terminal typically has a variety of above or below ground tankage; ...

We are trading in - Naphtha The main uses of petroleum naphtha fall into the general areas of (1) precursor to gasoline and other liquid fuels, (2) solvents (diluent) for paints, (3) dry-cleaning solvents, (4) solvents for cutback asphalts, (5) solvents in rubber industry, and (6) solvents for industrial extraction processes. The key difference between naphtha and gasoline is that the ...

We are trading in - Base Oil SN 150 Base Oil Co is one of the leading producers of virgin base oil SN 150, is base oil categorized in group I is a common quality base oil product of which uses in different applications base oils SN150 are used to manufacture products including lubricating greases, motor oil, and metal processing fluids, and many other applications One of the most ...

We are trading in - Automotive Gas Oil Automotive Gas oil, also known as diesel, is generated from crude distillation process and is used to efficiently power internal combustion diesel engines. Our diesel conforms to the specifications from the Department of Petroleum Resources (DPR). Automotive Gas Oil, or AGO, is the name given to fuel intended for use in road ...

We are trading in - Base Oil SN 650 This means that crude oil is heated in order that various distillates can be separated from one another. It has been solvent refined, dewaxed, and hydrogen treated to take out impurities. This oil has no impurities or compounds that can have an adverse effect on the quality of the oil. Uses of SN 650 Base oil Group I according to the ...

We are trading in - Light Crude Oil Light Crude oil is liquid petroleum that has low density and that flows freely at room temperature. It has low viscosity, low specific gravity and high API gravity due to the presence

of a high proportion of light hydrocarbon fractions. It generally has a low wax content as well. On the other hand, heavy crude oil or extra heavy crude oil is any type of ...

We are trading in - Base Oil SN 500 Base oil SN 500 the most widely used base oil. SN 500 is a light grade base oil at the upper end of the specifications for Grade I base oils. They are mainly used in lubricant production is a Group I base oil that has undergone solvent refining and dewaxing processes. It is the workhouse ingredient for formulators and blenders of lubricants ...

We are trading in - 10PPM Diesel ULSD is a D2 class diesel fuel material that results from a severe hydrofinishing process. This product is an Ultra-Low sulphur Diesel Fuel (ULSD) in line with EPA's new mandate of less than 15 ppm sulphur content, while improving environmental conditions by reducing unwanted emissions into the atmosphere. Diesel D2 has a high Cetane ...

We are trading in - D2 Diesel Gas Oil D2 is a refinery abbreviation for Gasoil. It is the second distillate from the crude oil, and can be used without reformers and additives. So, the first engines used D2 as fuel -- before petrol cars as we know them today was invented. That is because the engine invented by a German called Diesel, requires no spark plugs. The diesel engine will ...

We are trading in - 500 PPM Diesel Quest Petroleum Diesel 500 PPM is a premium quality, standard grade diesel for all automotive type high speed diesel engines in both stationary and mobile services. This diesel is a highly refined hydrocarbon fuel formulated with additive technology which provides improved power and performance with the potential for reduced ...

We are trading in - Fertilisers DAP and NPK Di-ammonium phosphate (DAP) fertiliser. It is the most popular phosphatic fertiliser because of its high nutrient content and good physical properties. The composition of DAP is 18% Nitrogen and P₂O₅ 46%. Within the same facility, Hindalco can also produce nitrogen phosphorus potassium (NPK) complexes as value-added ...

We are trading in - 500 PPM Diesel Quest Petroleum Diesel 500 PPM is a premium quality, standard grade diesel for all automotive type high speed diesel engines in both stationary and mobile services. This diesel is a highly refined ...
