

Automated storage solutions French Polynesia

Our high-bay storage systems offer maximum flexibility and quick, careful access to each roll for a wide variety of load units and roll weights. Careful storage prevents damage to the delicate front ends. The advantages at a glance. ...

Using Modula WMS, an operator creates a batch of orders and fill them all at one time. When the HC presents an SKU for picking, the operator picks the total SKU quantity for all orders. The batch picking lights, located at each order position, direct the picker to the correct location and indicate the quantity that needs to be placed in each order. By using batch picking, the operator only ...
