Prime Minister and Minister of Finance the Hon. Philip Davis said the countrys goal of having 30 per cent renewable power generation by the year 2030, embodies the Governments commitment to a sustainable future.

India is a leader in renewable energy among developing countries and recently completed the world's largest solar park. But beyond utility-scale installations, India is also working on a plan to build 10,000 microgrids to deliver energy access to the millions of people who still don't have it. It's no surprise that - of over 190 countries - India is also HOMER ...
