Costa Rica has a strong focus on renewable energy, with 99.78% of the energy output coming from renewable

Biolite solar price inia Costa Rica

sources in 2020. However, solar power currently accounts for less than 1% of the country's energy production. In November 2021, Costa Rica approved a bill that allows individuals to produce their own renewable electricity and sell their surplus energy.

The Road To Impact Chapter 5 originally appeared on The Harvard Business Review. As the heat continues to blister on this summer in New York I think back to the first time I ever bought an air conditioner: fresh out of college, it was a daunting investment, but well worth the quality of life improvement. I stumbled thr

Invest your savings in a solar panel system and get a 17% return on your investment. Given Costa Rica's current \$0.50 cent/kWh, a \$15,000 investment in a 5Kw system will yield a tax-free savings of \$275/mo. or \$3,300 in savings per year, every year. If rates continue to rise, the savings grows higher.
