At GEPS, we work closely with our clients to understand their specific energy requirements, site conditions, and sustainability goals. Our team then designs and implements hybrid solar power plants that are customized to maximize energy generation, optimize resource utilization, and meet the desired objectives.

An inverter battery is a specialized rechargeable battery utilized in conjunction with an inverter system. Its primary purpose is to provide backup power during electricity problems or in areas with limited grid access, including inverter battery service. The inverter battery stores electrical energy, typically in the form of direct current (DC), and converts it into alternating current (AC ...
