What is Canadian Solar's EP Cube residential battery?

At the RE+conference in Anaheim, California, Canadian Solar launched its newest residential product: the EP Cube residential battery. The battery can go up to 19.9 kilowatt-hours in size, comes with an integrated inverter, and can be installed with or without solar.

What residential storage solutions does Canadian Solar offer?

Discover Canadian Solar's Residential Storage Solutions: EP Cube and EP Cube Lite. Discover Canadian Solar's Residential Storage Solutions: EP Cube and EP Cube Lite Join Canadian Solar for an in-depth exploration of their residential storage solutions, EP Cube and EP Cube Lite.

How does the EP Cube work?

The inverter neatly attaches to the top of the battery bank, making it easy to install and operate. With the integrated hybrid inverter, the EP Cube is suitable for both new and installed PV systems. It also supports AC output, PV + battery, and battery-only options, allowing you to choose the best option for your home's energy needs.

How much does an EP Cube cost?

However, you can probably expect it to cost no less than between \$12,000 and \$15,000 for the 3-module option. As you add battery modules and units, the total price will increase. When the EP Cube officially becomes available for purchase in 2023, more pricing may become available.

Does Canadian Solar offer a warranty?

Canadian Solar is offering an excellent warranty for its battery system. The warranty states the battery will hold at least 80% of its capacity at 10 years, or 6,000 cycles, whichever comes first.

How many EP Cube units can I install?

If you need more than 19.9 kWh of storage or more than 7.6 kW of power output, you can install up to six EP Cube units for a maximum capacity of 119.9 kWh. The majority of homeowners won't need that much backup power, but it is an option that's available to you.

With the integrated hybrid inverter, the EP Cube is suitable for both new and installed PV systems. It also supports AC output, PV + battery, and battery-only options, allowing you to choose the best option for your home's energy needs.

Design My System is an online tool that lets you create your own solar energy system in minutes. You can choose your system size, battery capacity, inverter type, and other components based on your location, roof size, energy consumption, and budget. You can also see the estimated cost, savings, payback period, and environmental impact of your system.

Batería Canadian Solar EP CUBE 6,6kWh Una solución completa con una flexibilidad inigualable. El sistema de almacenamiento de energía residencial EP CUBE integra de manera estética y compacte un inversor híbrido, SAI y módulos de batería ligeros y apilables mediante conectores plug & play, ofreciendo un amplia gama de posibilidades para cada hogar.

MÜNCHEN, 14. Juni 2023 - Canadian Solar stellt auf der Intersolar Europe 2023 sein erstes Energiespeichersystem für Privathaushalte vor, namens EP Cube (EP=EternalPlanet), welches von Eternalplanet selbst konzipiert und entwickelt wurde und einen weiteren Meilenstein auf dem europäischen Markt darstellt.

The EP Cube hybrid inverter allows up to 16A per PV string current, and supports up to 4 MPPT connections, enabling greater PV panel connectivity so as to transform more solar energy into electricity for energy storage. EP Cube helps you store electricity from the grid when the price is lower, reducing costs and realizing automatic storage.
