

# Christmas Island home backup battery

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Are home battery backup systems safe?

In the age of solar power, home battery backup systems provide safe and reliable energy security. As an advanced alternative to traditional backup systems, like gas and diesel generators, home batteries can increase your home's energy independence in routine times and during emergencies.

Why do you need a whole-home battery backup system?

Whole-home battery backup keeps things business as usual during power outages. Why trust EnergySage? What are the best batteries for whole-home backup? Installing a whole-home battery backup system means you won't need to break out the candles or worry about keeping the refrigerator closed during power outages.

Should you install a whole-home battery backup system?

Installing a whole-home battery backup system means you won't need to break out the candles or worry about keeping the refrigerator closed during power outages. With independence from the utility grid, you can avoid the inconvenience of outages without sacrificing your daily routines.

Is a whole home battery backup system worth it?

You'll need about three times as much power for a whole home backup system, which is about three times the price of a partial home setup. Partial home battery backup systems generally make more sense for the average American home, but a whole-home setup may be worth it if you live in an area with frequent blackouts.
