

Container off grid Guam

Are recycled shipping containers a good choice for off grid homes?

When it comes to off grid homes, recycled shipping containers are a logical starting point for DIYers, off gridders, and those just looking for an affordable home. Shipping containers are portable, economical, and can be arranged in countless ways to create the tiny house of your dreams or the ultra-modern multi-family housing unit.

How do shipping container home builders work?

Most shipping container home builders complete their entire construction process indoors at their location, allowing them to work on homes year-round. This can save months of time over traditional building, while reducing clutter and waste at the home's eventual location. Shipping containers are built to be moved.

Where do custom container living homes ship to?

They are located in Missouri and will ship homes to all the lower 48 states. Custom Container Living focuses on quality and affordability, with a huge selection of styles and floor plan options to view for inspiration. As you can see from these photos, the interiors of these homes are stunning.

Where can shipping containers be placed?

In addition to the versatile design options, shipping containers can be placed in areas where other types of houses can not. Most container homes are set on pile foundations, so they can be placed on slopes and maneuvered into areas where a traditional foundation is difficult or impossible.

What happened to econtainer after Typhoon Mawar?

"After Typhoon Mawar's devastation in Guam, our container home from Econtainer was a beacon of resilience. Despite everything, it stood strong- a true testament to quality and durability. We're grateful and reassured, knowing we have a secure foundation to rebuild our lives."

Why should you buy an expandable container home from econtainer?

"Our expandable container home from Econtainer has been a true blessing for our family in the Philippines. It's not just a structure; it's a warm, welcoming space where memories are made and cherished. The ease of expanding and customizing our home has perfectly suited our family's needs."

This option can be implemented on 20 and 40 ft containers. Off-grid Water System. Our off-grid water system add on features an above ground septic tank, a 30 ft hose to connect, and 100 gallon water tank for water storage.
