

SOLEK is a leading energy company engaged in the design, construction and operation of solar power plants in Europe and Latin America. It operates nearly 40 photovoltaic power plants in Chile with a total capacity of over 250 MW. By the end of 2023, the entire SOLEK Group had 486 MW of solar power plants connected or under construction.

The original Polynesian voyagers also found other treasure on this distant place. Black pearls were bountiful but today commercial farming is no longer a part of the Penrhyn lifestyle although some still dive for the wild pearl shells which thrive in the vast lagoon, many of which yield the small, but prized, golden pipi pearls.

Czech renewable energy company Solek Group has announced that its Chilean subsidiary, Solek Latam Holding, has signed a framework agreement to develop solar projects in Chile. Under the terms of the agreement, the solar projects will be sold to BlackRock's Global Renewable Power Fund III (GRP III) after being developed. Solek will provide operation and [...]
