The 15-megawatt Tina River Hydropower Project will curb Solomon Islands' reliance on imported diesel by almost 70 percent, lowering power prices for homes and businesses across the country, where the price of electricity is among the highest in the world and heavily exposed to global fuel price fluctuations and shocks.

The high price of electricity in Solomon Islands is due, in part, to a reliance on diesel for its power generation and inefficient ways of transmitting and distributing electricity. SISEP and the proposed Tina River hydropower scheme look to lower these prices by exploiting the country's abundant hydropower potential and improving the ...

Solomon Islands continues to maintain high levels of proficiency in literacy and numeracy, scoring higher than the regional proficiency levels for years four and six. Solomon Islands has made impressive gains in health outcomes over the last two decades and is progressing towards achieving universal health coverage.

enterprises, including Solomon Power and Solomon Water, to be actively engaged and supported. 7. To the extent possible, all CCDRM projects should be reflected in the national budget. 8. Provincial governments are encouraged to develop CCDRM ordinances or legislation to align to the national budget planning and resourcing.
