The Renewable Energy Incentives Law (57-07) grants several incentives to businesses developing renewable energy technologies. This law was passed in 2007 as part of the Dominican government's efforts to invigorate local energy generation from renewable sources, as well as to promote the production of high-value renewable energy products.

Sitting a few metres from the Girasol Solar Park, the largest photovoltaic power plant in the Dominican Republic and the Caribbean, Carlos Suazo claims that this majestic infrastructure is responsible for the increased ...

The solar power plant is located on an area of 2 million square meters. A total of 215,000 modules were installed, which produce an output of 58 MW. As the largest solar park in the Caribbean, the solar park Montecristi will produce around 103,000 MWh of electricity per year and will thereby be able to supply permanently up to 50,000 households ...

TW Solar TWMND 440W. We are not currently offering this panel - please view our current solar panels. This Tongwei 440W Solar Panel is N-Type, with 25 years warranty for materials & 25 years Linear Power Warranty. Tongwei claims to be the largest global manufacturer of silicon cells, supplying their own production of panels as well as many ...

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ ...
