What is my Drax Energy?

My Drax Energy puts you in control of managing your energy, whatever the time and place. Available via desktop, tablet and mobile, the portal lets you submit meter readings, check account balances by site, analyse your energy use - and more. It also gives you access to exclusive offers on selected partner products and services.

Where does Drax electricity come from?

This electricity comes from Drax Power Station- fuelled by sustainable biomass - in North Yorkshire and our pumped storage and hydro sites in Scotland. The Intergovernmental Panel on Climate Change (IPCC) is the world's leading authority on climate science.

Who owns Drax Power Station?

In 1990, the electricity industry of England and Wales was privatised under the Electricity Act 1989. Three generating companies and 12 regional electricity companies were created. As a result of privatisation, Drax Power Station came under the ownership of National Power, one of the newly formed generating companies.

Is Drax scrapping Europe's largest gas plant after climate protests?
