

Energy storage battery export ranking

Which Chinese energy storage battery companies performed well?

Chinese energy storage battery companies performed exceptionally well, achieving record-breaking global shipments. CATL maintained its leading position for consecutive years, while other companies such as EVE Energy, HiTHIUM, BYD, and AESC followed closely. TOP 1 CATL

Are energy storage battery cells growing?

According to SMM statistics, global shipments of energy storage battery cells saw significant year-on-year growth, reaching 334 GWh for the year. Among these, lithium iron phosphate (LFP) energy storage battery cells accounted for 317 GWh.

Which energy storage cell manufacturers remained high in the first three quarters?

Industry concentration remained high in the first three quarters of 2024, with a CR10 of 90.7%, staying at historically elevated levels, consistent with the first half. The top five largest energy storage cell manufacturers in the first three quarters were CATL, EVE Energy, BYD, Hithium, and REPT BATTERO.

Who are the major energy storage partners?

Major energy storage partners include domestic players like China Energy Group, SPIC, China Huaneng, China Huadian, and CNPC, as well as international firms such as NextEra, Synergy, W&P, Exelsior, Jupiter Power, and FlexGen. BYD secured second place with 192 GWh in shipments, up 22% YoY, holding a 15% market share.

How did SEVB achieve significant progress in the energy storage sector?

SEVB achieved significant progress in the energy storage sector in 2024. With its superior product quality and services, the company successfully integrated into the supply chain of leading integrators such as Sungrow and CRRC.
