

# Energy storage high voltage contactor merchants

What is a high-voltage DC contactor?

Our high-voltage DC contactors have been successfully applied in multiple countries, covering diverse needs in electric vehicles, energy storage, and industrial sectors. These cases demonstrate the superior performance and reliability of our products, making them the ideal solution for your high-voltage DC projects.

Who makes high voltage DC contactors in China?

HOTSON is the leading manufacturer of high voltage DC contactors in China. We've engaged in R & D of high power contactors for 15 years, products including Epoxy sealed contactors and ceramic sealed contactors.

Which high power contactor is suitable for a low rapid vehicle?

Suitable for sealed switching solution of low rapid vehicles like Electric Forklift trucks, Golf carts, etc. Epoxy sealed HV DC contactors (EVQ Series) are the most competitive and hot selling high power contactors for new energy solutions. Epoxy sealed contact chamber with inert gas, magnetic arc blowout, low noise, flexible mounting position.

Why should you choose a high voltage DC Circuit contacting system?

Your Reliable High Voltage DC Circuit Contacting Solution, Low Cost, Stable Performance, Ensure the Efficient and Safe Operation of Your HVDC System Built for high performance and reliability, it's the ultimate choice for your Electric vehicle, EV charging, photovoltaic power generation, energy storage system and other HV DC systems.

BSB is a manufacturer specializing in the research, development, and production of high-voltage DC relays, energy storage connectors, and hydraulic electromagnetic circuit breakers.

Features Epoxy packaging, the contacts are protected by nitrogen, preventing oxidation, strong cooling arc capacity. High-voltage, high-current control capable. Compact & ...
