

Can a power battery supplier cooperate with a new energy vehicle manufacturer?

Considering the supply chain composed of a power battery supplier and a new energy vehicle manufacturer, under the carbon cap-and-trade policy, this paper studies the different cooperation modes between the manufacturer and the supplier as well as their strategies for green technology and power battery production.

How do manufacturers and suppliers cooperate in power batteries?

According to the different ways of cooperation between manufacturers and suppliers about power batteries, we constructed the game models under three strategies: wholesale purchase, patent-licensed manufacturing, and self-research + wholesale purchase, and solved them by applying Stackelberg's game theory and the asymmetric Nash game theory.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

Is Tesla Energy a good energy storage company?

Tesla Energy's energy storage business has never been better. Despite only launching its energy storage arm in 2015, as of 2023 the company had an output of 14.7GWh in battery energy storage systems. Its portfolio includes storage products like the Powerwall and the Megapack.
