MARSRIVA - Solar Inverter / Battery / Energy Storage System / UPS System_Light up the world with MARSRIVA products-Solar Inverter, Battery, UPS System.etc. Whenever and wherever you need, choose MARSRIVA and keep the life power on.

By Antonio Oburu Ondo, Minister of Hydrocarbons and Mineral Development, Equatorial Guinea ExxonMobil has concluded its operations in Equatorial Guinea after almost three decades, fulfilling its intention, stated in 2022, to leave when its licenses expired. The departure of the American giant marks the close of a significant chapter in ourCountry"s ...

Overview. The Guinean government has announced a long-term energy strategy focusing on renewable sources of electricity including solar and hydroelectric as a way to promote environmentally friendly development, reduce budget reliance on imported fuel, and to take advantage of Guinea"s abundant water resources.

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

State power utility Sociedade de Electricidade de Guinea Ecuatorial inaugurated a 120MW hydro plant in October on the Rio Muni mainland. The Djibloho plant, built by China"s Sinohydro on the Wele River, consists of four 30MW Francis turbines and cost \$257m, fully funded by the state.

H.E. Minister Obiang Lima stated that Equatorial Guinea aims to replicate the model used in the construction and operation of the Nigerian modular refinery and highlighted the need for knowledge and best practices sharing among African countries, with an emphasis on local content. ... Oasis 1 Battery Energy Storage Projects Achieve Financial ...

For Equatorial Guinea, which enjoys a strategic position in the Gulf of Guinea, gas-to-power offers the potential to anchor the development of a regional power economy. Given its current energy output and relatively small population of 1.4 million, the country has been able to meet domestic energy demand with self-produced power to date.

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. ...

The government of Equatorial Guinea is installing a self-sufficient solar microgrid project in Annobon Province in partnership with three American companies: the consulting firm MAECI Solar, GE Power & Water and Princeton Power Systems. This project will be Africa's largest self-sufficient solar microgrid and will bring significant benefits to the West African nation.

A History of Excellence. Founded in 1985, Vaalco Energy is a Texas-based leading African-focused oil & gas operating company with a strong production and reserve base and a diverse portfolio of assets in Côte d'Ivoire, Gabon, Egypt, Equatorial Guinea, Gabon and Canada.

Panoro Energy CEO John Hamilton said, "The award of a PSC for Block EG-23, when finalized, will be a complementary expansion of our existing acreage portfolio in Equatorial Guinea. We look forward to

partnering with GEPetrol to leverage our collective core subsurface skill sets, increasing our exposure to a broad range of play types ...

In 2016, Noble Energy EG Ltd (A Chevron Company), an oil and gas company that operates around Bioko Island, began funding MCD's Cervical Cancer Screening and Treatment (CCST) project in Equatorial Guinea. Our team has trained hundreds of health professionals in using the "screen-and-treat" approach, a cost-effective and simple method to ...

Saipem has announced a contract with Noble Energy for the offshore installation of a 70km gas pipeline connecting the Alen platform to Punta Europa to supply gas from the Alen field to the Alba liquefied petroleum gas processing plant and the EGLNG facility. Project start-up is planned for H1 2021. The Alen development is the first step in plans for an offshore natural ...

This infographic summarizes results from simulations that demonstrate the ability of Equatorial Guinea to match all-purpose energy demand with wind-water-solar (WWS) electricity and heat supply, storage, and demand response continuously every 30 seconds for three years (2050-2052). All-purpose energy is for electricity, transportation,

The government has contracted US company MAECI Solar, in collaboration with GE Power & Water and Princeton Power Systems, to install a 5MW solar microgrid system on Annobon Island. The microgrid will provide electricity for the island's 5,000 residents using GE's battery-based energy storage system, which is designed to withstand the high temperatures ...

Chevron subsidiary Noble Energy on 26 February announced first gas from the Alen gas monetisation project in the Douala Basin. The project consists of a 70km pipeline built by Saipem with a capacity of 950mcf/d, carrying gas from the Alen field to be processed through existing facilities at Punta Europa.

Other pages in section Block G (Ceiba Field and Okume Complex) The Ceiba Field and Okume Complex assets comprise six oil fields offshore Equatorial Guinea. The Ceiba Field is located in 600-800 m of water depth on the slope of the southern Rio Muni Basin approximately 35 km offshore. Oil production commenced in November 2000 [...]

LAGOS, August 16, 2024 - Nigeria and Equatorial Guinea have signed an agreement to build and operate a 200-kilometre gas pipeline between the two countries, Nigeria's presidential spokesperson Ajuri Ngelale announced on Thursday. The pipeline, named the Gulf of Guinea Gas Pipeline, entails an investment of USD 2.5-billion and will transfer gas from Nigeria to ...
