

# Energy storage technology training report

**Abstract** This report defines and evaluates cost and performance parameters of six battery energy storage technologies (BESS) (lithium-ion batteries, lead-acid batteries, redox flow batteries, ...

**Preface** This report is one in a series of the National Renewable Energy Laboratory's Storage Futures Study (SFS) publications. The SFS is a multiyear research project that explores the ...

**Supply Chain Threat of PRC Influence for Digital Energy Infrastructure: Evaluating the Technical Risk Landscape** ..... 55 Grid ...

The Storage Futures Study (SFS) is a multiyear research project to explore the role and impact of energy storage in the evolving electricity sector of the United States. The SFS is designed to ...

This report demonstrates what we can do with our industry partners to advance innovative long duration energy storage technologies that will shape our future--from batteries to hydrogen, ...
