The Powerbox Pro is a type of deep cycleand high capacity LFP battery with improved safety, long lifespan, andoptimized user experience. It is especially designed with IP65 for more flexible and easier installation indoor or outdoor with wall-mounted and landed installation options.

The Dyness Powerbox Pro battery module is a high-performance energy storage system with large capacity and high efficiency. By connecting two modules in parallel, a more powerful power supply system is formed, which not only significantly increases the power supply capacity, but also significantly enhances the stability and reliability of the power supply.
