How do I compare solar panel prices & quotes?

Here you can compare solar panel prices and solar panel quotes with ease and find lowest cost panels. Simply type your postcode into the box below and select one or many local and national, trusted solar panel installers and ask them for a quotation.

How much do solar panels cost?

The most widely installed solar panel system is a 3.5-kilowatt peak (kWp) setup, which usually consists of 12 solar panels (at 350 W each) and costs between £5,000 and £10,000. Installing solar panels could lead to annual savings of up to £465 on energy bills, based on the current Energy Price Guarantee, as per the Energy Saving Trust.

Are solar panels worth it in the UK?

Yes, installing solar panels in the UK is worth considering. They provide several benefits including reduced electricity bills, lower carbon emissions, and earnings from excess energy generation. What is more, solar panels pay for themselves in the range of 7 to 10 years on average. How much will 10 solar panels cost in the UK?

How much does solar panel maintenance cost?

Solar panel maintenance can cost hundreds or even thousands of pounds over your panels' lifespan, if you don't have a maintenance payment plan in place. Industry experts estimate that every year, the average solar & battery system in the UK has a 15% chance of requiring maintenance, across a 20-year period.

How much do monocrystalline solar panels cost?

The exact cost of monocrystalline solar panels will vary depending on the manufacturer and the size of the solar panels. As a rule of thumb, monocrystalline solar panels have their highest price point at about £1 - £1.50 per Watt. Polycrystalline solar panels, on the other hand, have a lower efficiency rating than monocrystalline panels.

How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.
