Who is Greystone energy systems?

Greystone Energy Systems Inc. is internationally recognized as one of the largest ISO registered manufacturers of HVAC sensors and transducers for Building Automation Management Systems.

Where is the new Greystone headquarters located?

The team had a few meetings and visited the new Greystone headquarters that is underdevelopment. From here, they will visit the head office of QEL in Ontario, Canada, the new recently incorporated company within the Bemsig Group and subsidiary of Greystone Energy Systems Inc.

Why should you choose Greystone?

Distributors, contractors, and facility engineers have trust in the Greystone brand delivering quality assured and competitive priced product to their commercial and light industrial projects. Greystone is one of North America's largest ISO registered manufacturers of HVAC sensors and transmitters.

Are Greystone products designed & tested in-house?

Using the latest design tools, internal collaboration and customer input, all Greystone products are designed & tested in-house to provide market focused products. LEAN MANUFACTURING

When did Greystone become a global company?

Since its inception, Greystone's leadership has had a global focus on growth, expanding into the United States in 1987, into South East Asia shortly later in 1989, and finally expanding into the Middle East in 1998.

On September 29th, 2021, Greystone Energy Systems Inc. and our international subsidiaries were acquired by Bemsig. Bemsig is a group of innovative and fast-growing companies providing products in building automation and metering.

Greystone Energy Systems Inc - A Message to our Customers and Suppliers - Bemsig Acquisition. Dear Valued Partner, It is my great pleasure to inform you that on September 29th, 2021, Greystone Energy Systems Inc. and our international subsidiaries were acquired by Bemsig. Bemsig is a wholly-owned subsidiary of Investment AB Latour (publ).

Greystone Energy Systems. Greystone Energy Systems is proud to be a leading supplier of quality assured and approved sensors and transmitters for the HVAC/R industry. With a robust, competitively priced product line and superior technological competence, customers benefit from both price and performance. Our customers' satisfaction and ...

May 22nd, 2024 Groundbreaking Ceremony: Greystone Energy Systems Inc. Building New Headquarters in

Greystone energy systems inc Seychelles

Moncton, NB May 22, 2024, will mark the official start of construction on Greystone Energy Systems" new global headquarters, located in Moncton, New Brunswick Canada. With over 78,000 square feet of mixed office and manufacturing space, this new ...

Product Description. The PMDT Duct Particulate Matter Sensor uses an optical sensor based on laser scattering principles and features innovative contamination resistance technology to perform highly accurate and reliable PM measurements.

Product Description. The single point temperature transmitter utilizes a precision sensor encapsulated in a 6.00 mm (0.236") OD, 304 series stainless steel probe and is available in various lengths (see ordering chart) All probes provide excellent heat transfer, fast response and resistance to moisture penetration.
