I teleported Player HQ into Leap of Faith. Unfortunately I had no condensate storage built so will need to teleport it back, build condensate storage and a few S-sized ships with 25 condensate containers. I will test if Protectyon collecting can be automated.

Make sure your PHQ already has at least one condensate storage facility installed, obviously. I had eight on mine, so my PHQ now has 8,000 units of Protectyon in storage, with an extra 2,500 being carried by 100 Raleighs and 450 on my Astrid. ... ? X4: Foundations; ? X4: Foundations - Spoilers; ? X4: Foundations - Technical Support; ? ...

The blueprint you steal is for a condensate storage module (under the storage section in the build menu). You don't actually produce the condensate, you merely collect it ...

X4: Foundations. All Discussions Screenshots Artwork Broadcasts Videos Workshop News Guides Reviews ... You need Protectyon Shield Generator (storage capacity 50), you don't need condensate storage but it is good to have one solar/scrap station with protectyon storage near Windfall gate and set protectyon price at minimum (RIP will be happy). ...

As others have mentioned, there is a quest you get once you enter Avarice. The first thing you do is rescue a Teladi from his damaged ship. Once you have progressed through the quest line to "Leap of Faith" you will have to make a choice: steal the condensate blueprint and have the twins put a bounty on your head, which makes Vigor very hostile.

condensate storage tanks and the condensate transfer pumps are located in the Unit 1 control room. Included on the Unit 1 panel 9-22 are the following: Level indicator for each of the three condensate storage tanks, BFN-25 11.9-4 Control switch for each of the six motor-operated valves in the two

You can take any large ship that docks S, buy a bunch of condensate Raleigh, take them through with you and then fill them all up, really easy to do. I used a Wyvern with 40 ...

X4 is a living, breathing space sandbox running entirely on your PC. Thousands of ships and stations trade, mine and produce, all realistically simulated. In this universe, you can grow from being the lone pilot of a fighter ship, to managing a vast empire, commanding your fleets and designing colossal space stations.

X4 is a living, breathing space sandbox running entirely on your PC. Thousands of ships and stations trade, mine and produce, all realistically simulated. ... and every station in avarice magically gets their condensate storage filled by magic as well, with zero condensate traders found anywhere in the game, and zero Buy offers in the universe ...

Because apparently the only way to utilize anomalies is for me to directly pilot a ship through them, I'm trying to figure out the best way to automate Protection distribution. So far my best idea (which still seems pretty dumb) is to fit out 2 carriers/auxiliary ships with a large number of Raleigh (Condensate) ships. Then when the spoiler event happens that allows ...

I set up a depot and several Raleigh to get it to the stations. It's a pain in the arse getting an Astrid to fill the Depot 430 units at a time. But hey. 4000 units will last forever in X4 time. You can take any large ship that docks S, buy a bunch of condensate Raleigh, take them through with you and then fill them all up, really easy to do.

A few oddball notes on storage, it's not a mystical shifting thing. When something is added to storage, it gets added to a specific container. If you overbuild your storage by a lot, and later go to remove un-needed storage modules, the items in those storage modules go bye bye.

X4 is a living, breathing space sandbox running entirely on your PC. Thousands of ships and stations trade, mine and produce, all realistically simulated. ... If you add condensate storage to stations NPCs request to be built in avarice you can sell them heaps of the condensate to fill the storage one you hand them over.

This forum is the ideal place for all discussion relating to X4. You will also find additional information from developers here. Moderator: Moderators for ... Post by Dirk-Jan » Wed, 13. Mar 19, 12:29. So what is

Guernsey x4 condensate storage

the difference in functionality of the various storage types of a station (player owned) There is a production storage (with produce ...

After completing the main quest, and capturing both transports. I gathered up as much pro as possible. Managed to build a storage facility at 2 of my stations and transferred the cargo there. I also set the sell level as low as possible, due to the fact you get an angry message after selling at the stock price lol. So far my trade ships have not sold any of it. How can I sell ...

Hey guys, just had a couple of quick questions. I've googled but it is surprisingly difficult to find good X4 plot stuff online. So, here we go: 1. I am at the part of the TOA plot where you are on the yacht with the twins and you have to decide how to proceed (Northriver or strike out on your own). What do these decisions cause? In my play through, I have done a pretty ...

the Transport Class of Protectyon is Condensate, the only Ship that you can buy from the get go would be the "Raleigh (Condensate)" wich can be bought from Vigor (with the Military Ship License) and from Riptide. The Astrid Ships (Yacht) can also carry it should you have the luck to get your Hands on one.

X4: Foundations. All Discussions Screenshots Artwork Broadcasts Videos Workshop News Guides Reviews ... I'm building a station in Avarice, with the Condensate storage done. However, the structure keeps falling, and got the the message "The station does not have protection against the Tide." in the construction planning UI.

At least the plot is about the "high price" of protectyon and that only comes with low availability in X4 - when there is 5000/5000 available, prices are as low as they can get. ... I just found the Condensate storage module size S which, according to the encyclopedia, can hold 10000 "somethings" of protectyon. Probably m³? So 1000 protectyon ...
