

Island solar supply Cambodia

What makes Cambodia a good solar country?

At the moment, Cambodia enjoys a good presence of solar product producers and suppliers. It also has three sea ports and a healthy logistical network. These make it possible to import or export solar products whenever the need arises. They also place Cambodia's solar market in a better position for growth as the nation looks to the future.

Will Cambodia's solar market grow?

Solar exports predict that Cambodia's solar market could grow at 10% annually owing to this new development. At the moment, Cambodia enjoys a good presence of solar product producers and suppliers. It also has three sea ports and a healthy logistical network.

How much solar power does Cambodia have?

Currently, Cambodia's solar energy production and supply capacity stands at approximately 64.77 Megawatts. However, Cambodian households and private enterprises are increasingly investing in photovoltaic systems as an alternative power source.
