

Italy big solar companies

Who is the leading operator of photovoltaic solar energy in Italy?

In 2022, the oil and gas energy company Sorgenia S.p.A. was the leading operator of photovoltaic solar energy in Italy. Its revenues amounted to roughly 6.3 billion euros in 2022. Siemens S.p.A. followed in the ranking, as its earnings reached 1.4 billion euros. Get notified via email when this statistic is updated.

Why should you choose a solar company in Italy?

They are involved in various activities such as the installation of solar photovoltaic systems, development of new projects, and offering energy solutions. The presence of these established companies, with their extensive expertise and resources, plays a crucial role in propelling the growth of the solar energy market in Italy.

What is solar energy in Italy?

Solar energy is radiant light and heat from the sun that is harnessed using a range of technologies such as solar PV or concentrated solar power (CSP) to generate electricity, solar thermal energy, and solar architecture. The Italian solar energy market is segmented by type, end-user, and deployment.

Why is Italy promoting solar energy?

Within the European Union, Italy is ranked second, just behind Germany, in terms of its photovoltaic sector. The Italian government is promoting solar energy for several reasons. Firstly, it is committed to reducing the country's dependence on fossil fuels and increasing its share of renewable energy in the energy mix.

Why are solar panels so popular in Italy?

Solar panels are increasingly popular in Italy and are now a very reliable technology that can cut energy costs. Solar energy is also becoming more widely available, with companies like IKEA even selling solar panels in Italy.
