

In volcanic regions of the world, geothermal energy is harnessed to provide a cleaner energy source for power. For example, in Iceland over 25% of the electricity comes from this source (NEA Iceland). Countries with lower subsurface heat resources, such as the UK, can still benefit from geothermal sources.

Senior Consultant at Melin Energy Consultants · I graduated from UWIC with a degree in Architectural Design and Technology in 2005. I then worked on the design team at South Hook LNG terminal in Milford Haven where I was tasked with working with engineers to update and create technical drawings, coordinate drawings and detail drawings.

I am currently ...

SAP stands for Standard Assessment Procedure and is adopted by Government as the UK methodology for estimating the energy performance of a new dwelling, conversion or extension. Using state of the art computer modelling software, the SAP Calculation determines a number of indicators of energy performance including, an energy cost rating (the SAP rating), an ...

As the world pivots towards a Net Zero future, Merlin Energy Resources Ltd. is committed to being part of the solution. Through a holistic approach that combines technical excellence, environmental stewardship, and a forward-thinking mindset, we're working tirelessly to shape a more sustainable energy landscape for generations to come.

Merlin's Geoscience Experience. Merlin Geoscience works on projects covering the whole energy lifecycle including exploration, appraisal, development, and maximisation of late life field recovery. Our experienced staff bring together a ...

Solar panels earning a Good rating are a safe and solid choice for your solar energy system under most circumstances. These panels are in the average range for most or all technical criteria analyzed, though may offer a shorter-than-average warranty. Good solar equipment is ideal for solar shoppers seeking a bargain for their solar energy system.

Commercial EPCs Home - Compliance - Energy Performance Certificate - Commercial EPCs Commercial Energy Performance Certificates (EPCs) From April 2023, new legislation requires all commercial rental properties to have an EPC rating of at least E or better and failure to achieve this will see landlords face potential fines of up to £150,000. But don't [...]

The London Plan Energy Strategy is a mandatory requirement for all planning applications in the capital. It ensures that new developments incorporate energy-efficient designs and technologies to reduce carbon emissions. The strategy outlines how a development will meet the Zero Carbon standard, contributing to London's broader sustainability and carbon reduction targets.

Merlin Energy Resources strive to build a lasting relationship with all clients, built on mutual trust and they treat the asset as though it was their own, so work is only proposed, if they believe that it will create value. They always propose phased projects where fatal flaws are identified at an early stage, allowing a low-cost exit and they
