

# Micro energy storage module

This paper presents a road piezoelectric micro-energy collection-storage system, which overcomes the problem of limited application due to the existing technology being ...

In the past decade, micro-energy systems on-chip (MESOC) have been widely studied from energy collection to storage, management, and system integration, their ...

Micro-energy systems on-chip (MESOC) is an emerging energy supply micro-equipment, and it has been developed rapidly in recent years [5,6]. It integrates a variety of microscale energy ...
