My energy libbi Saint Lucia

(LIBBI-510Sh). This is to go with Jinko panels.

My daily household consumption is often around 25kwh so I should burn through all the stored charge in Libbi by the end of the day. The problem is that I don't. Libbi only ever seems to discharge a small proportion of the current household energy draw (somewhere around 20%) so I never make use of the full battery storage.

libbi only libbi only: Replace your existing solar inverter with a libbi, which is a combined solar inverter and battery or add your new solar + libbi alongside your existing system: Solar Charging Energy Grid Charging
Unique Features: Connect your new solar array directly to your battery, with no additional inverter needed!
