

Nant energy Tajikistan

Who is NantEnergy?

"NantEnergy, formerly Fluidic Energy, is dedicated to accelerating the worldwide transformation to clean, reliable energy through its innovative and intelligent energy storage solutions.

Where is NantEnergy headquartered?

NantEnergy is headquartered in Scottsdale, AZ. What is the size of NantEnergy? NantEnergy has 60 total employees. What industry is NantEnergy in? NantEnergy's primary industry is Other Energy Services. Is NantEnergy a private or public company? NantEnergy is a Private company. What is NantEnergy's current revenue?

Who owns NantEnergy?

Asia Climate Partners, Caterpillar, Hercules Capital, International Finance Corporation, and Madrone Capital Partners are 5 of 9 investors who have invested in NantEnergy. Who are NantEnergy's competitors? RedFlow and Primus Power are competitors of NantEnergy. When was NantEnergy acquired? NantEnergy was acquired on 27-Nov-2018.

Is NantEnergy the future of energy storage?

NantEnergy continues to build momentum as the long-duration energy storage leader, installing systems worldwide that increase reliability, functionality and surpass cost targets necessary for practical energy storage adoption. While meeting market needs now, NantEnergy is paving the path for the smart, sustainable and accessible grid of the future.

How is NantEnergy changing the world?

NantEnergy's technological progress is fundamentally changing the way people, businesses, and utilities generate, store, and use electricity. Our technology and our people are meeting dynamic market needs today while paving the path for the smart and sustainable grids of the future. A Natural Energy Storage System

Why should you choose NantEnergy?

NantEnergy continues to build momentum as the long-duration energy storage leader, installing systems worldwide that increase reliability, functionality and surpass cost targets necessary for practical energy storage adoption. While meeting market needs now, NantEnergy is paving the path for the smart, sustainable and accessible grid of the..."
