

Nordex group Cambodia

What is the Nordex group?

The Nordex Group offers customers worldwide technically and financially sustainable multi-megawatt onshore turbines for every wind strength and climate zone. We are providing solutions for markets with both limited grid availability and limited land availability.

Where is Nordex made?

Nordex SE is a European company that designs, sells and manufactures wind turbines. The company's headquarters in the German city of Rostock while management is in Hamburg. Nordex produces at sites in Germany, Brazil, India, Mexico and Poland and Spain. The main production facility is located at the headquarters in Rostock.

Is Nordex a Chinese company?

However, the Company continues to be represented in China, particularly on the purchasing side. From a technical perspective, Nordex is focused on developing wind turbines for onshore sites that allow operators to produce environmentally friendly electricity at the lowest possible cost (Cost of Energy - COE) in their respective regions.

What markets does Nordex operate in?

The Nordex Group's division North American comprises two primary markets: Canada and the United States. Renewable energies are becoming increasingly important in this region, and wind power is leading the way.

Does Nordex operate in the offshore wind energy sector?

For strategic reasons, Nordex does not operate in the offshore wind energy sector. Offshore wind turbines and projects differ significantly from their onshore equivalents, particularly in technical terms. In addition, the onshore segment represents well over 90% of the global wind energy market.

What services does Nordex offer?

The Group concentrates on developing and producing complete systems, including the control software as well as the main core components, and on offering related services. Services rendered by Nordex for a specific project range from the mere delivery of the wind turbines to turnkey construction of a complete project (Turnkey contracts).

With predominantly medium wind locations and low to medium turbulence, the Nordex Group today offers the N163/5.X and N163/6.X turbine types from the Delta4000 series - the optimal solution for Spanish wind conditions. With 3365 MW in operation, and another 1003 MW under construction, in 2022, the Nordex Group achieved a market share of 45% ...
