

# Nordic energy storage battery phone

Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

What products does Nordic batteries offer?

Nordic Batteries' technology portfolio centers on two main product lines: ePOWER and eENERGY modules. The ePOWER series delivers high-power output for demanding industrial applications, while the eENERGY modules provide extended duration energy storage capabilities.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-S&#229;korn Fond, provides significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.

What is the Nordic battery collaboration?

The Nordic Battery Collaboration is a key initiative. The decision to carry out this report was taken by Business Sweden, Business Finland, Innovation Norway and the Swedish Energy Agency together. All parties are financing the report. The report is conducted by Business Sweden.

SEB Nordic Energy's portfolio company, Locus Energy, is collaborating with Ingrid Capacity to build the largest battery energy storage project in Finland, contributing 70 MW/140 ...
