

Sohar, Oman - Today, Oman Shell launched the 25-megawatt Qabas solar plant, helping the port and freezone in Sohar to become more sustainable and demonstrating the commercial benefits of solar power for industrial purposes. Owned by Shell, Sohar Solar Qabas is the company's first utility scale, photovoltaic (PV) solar project in the Middle ...

Envisaged for implementation in a series of stages, the first 25 MW of solar-PV based capacity is expected to be operational before the end of this year, according to Sohar Port and Freezone. "SOHAR Freezone has joined forces with Shell, who will develop up to 300 MW of renewable energy, adding economic value to Oman and our industries.

Once the project constructed, it will be the oman's first commercial-scale solar PV plant in Sohar Port and Freezone. As per Shell Oman, Qabas Solar PV Plant has been launched with initial Capacity of 25 MW for development in Sohar Port. The output of which will be utilised by a major ferrochrome project in operation at the adjoining free zone.

Oman Shell has commissioned a 25MW solar project called the Sohar Solar Qabas solar plant. The Sohar Solar Qabas project will be owned by Shell and is the company's first utility scale, photovoltaic solar project in the Middle East as well as in Oman. The location of the plant is at a site within Sohar Freezone, northern Oman, which has an ...

sohar solar qabas fzc llc????????,??(?????????) Sohar Solar Qabas Fzc Llc?????????-???

The Qabas solar project, launched by Oman Shell, comprises 88,000 solar panels and generates 25 MW, the equivalent of powering 10,000 homes. The aim is to assist in facilitating cost-competitive solar power to ...

Oman Shell launched its first industrial-scale solar project in the Middle East - Sohar Solar Qabas. Today, Oman Shell launched the 25-megawatt Qabas solar plant, helping the port and freezone in Sohar to become more sustainable and demonstrating the commercial benefits of solar power for industrial purposes. Owned by Shell, Sohar Solar Qabas is the [...]
