

Peak shaving energy storage battery

The rapid development of battery energy storage technology provides a potential way to solve the grid stability problem caused by the large-scale construction of nuclear power. ...

This study reviews several peak shaving strategies and highlights their practical applications, with a focus on an enhanced rule-based peak shaving (RBPS) technique that takes into account the ...

In this paper, we present an approach for peak shaving in a distribution grid using a battery energy storage. The developed algorithm is applied and tested with data from a real ...
