Discovery of Pitcairn Island . Captain Philip Carteret first spotted Pitcairn Island in 1767 but couldn't land due to rough seas. He miscalculated its location, marking it miles away from its true position. Years later, Captain Cook showed some interest, but it wasn't until the Bounty mutineers arrived in 1790 that the island gained attention.

In 2020, to celebrate 50 years of the ISES Solar World Congresses, the ISES Board set out to conquer a new project: creating a fully virtual online museum of solar energy.
