

What is powerup energy technologies?

PowerUP Energy Technologies mission is to improve sustainability and reliability of the energy systems. With a vision for a cleaner tomorrow, PowerUP develops and manufactures high-quality, sustainable energy generation products. Boasting 20 years of experience in fuel cell technology, we stand as an innovator in the fuel cell technology market.

Can I share my personal information with PowerUP energy technologies?

Never share sensitive information (credit card numbers, social security numbers, passwords) through this form. This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply. PowerUP Energy Technologies provides hydrogen fuel cells generators, a sustainable innovative source of energy.

How does powerup generator work?

Clean power, green future. PowerUP's generators are based on proton exchange membrane (PEM) fuel cells, which makes power generation efficient and environmentally friendly. Our fuel cell based generators use hydrogen gas as fuel. The chemical energy of the fuel is directly converted to electrical energy.

Smart Solar Made Simple. POWER-UP ENERGY, your leading Tesla & Enphase partner serving all of California & Texas. We install top-tier solar panels and home battery storage solutions to save you money through clean, sustainable energy systems. Elite install crew focused on providing you with the highest value customer experience possible!

The aim of this project is to develop new and innovative bipolar plates (BPP) and membrane electrode assembly (MEA) for PowerUP's air cooled fuel cell stack. Project is in a partnership with a France company HYCCO who will develop ...

PowerUp Fuel Cells OÜ, Beyonder AS ja Nordic Batteries AS koostöös arendatakse välja turuvalmis kütuseelemendi põhine kaasaskantav generaator UPMobile, mis varustaks puhta energiaga valdkondi, mis vajavad katkematut energiavarustust. Eelkõige on lahendus suunatud ehitus- ja kaevandussektorile.

With an aim to obliterate these hurdles to seamless electricity generation and storage, Tallinn-based PowerUP Energy Technologies is offering an exceptional line of silent, odorless, and lightweight hydrogen fuel cell smart electric generators that are far more efficient and sustainable than their traditional counterparts.

Dr. Ivar Kruusenberg, CEO and founder of PowerUP Energy Technologies, believes Estonia has a lot of potential to be at the forefront of the hydrogen economy: "Estonia has a huge potential with open sea wind farms to produce green electricity and then the export value of green ammonia. There's definitely a big

potential there."

Dr. Ivar Kruusenberg, the Founder and CEO of PowerUP Energy Technologies, has big ambitions for hydrogen cabinets. "We're planning to open more cabinets not only in Estonia, but in Finland, Sweden, France and maybe in England. This is one of the first steps: to open this [Estonia's] first, see how it works and then get the next cabinets ...

The purpose of the project is to develop and assemble in co-operation with Beyonder AS and Nordic Batteries AS a 10,000 W proton exchange membrane (PEM) fuel cell based portable generator, UP10K Pro, which will provide clean energy to a number of industries that require uninterrupted power supply, but is mainly targeted to the construction and mining industry.

PowerUP arendab MEA-d, kus toimuvad elektrokeemilised reaktsioonid ja mis on seetõttu kütuselemendi üks kõige olulisemaid osi. RUP projekti eesmärk on tõestada, et uue BPP ja täiustatud MEA kombinatsioon toob kaasa oluliselt suuremad mahulised võimsusparameetrid.

Seller is PowerUp Fuel Cells OÜ, a company registered in the Republic of Estonia, under registry code 14110442 (Seller, we, us or our). Our contact information is as follows: PowerUp Fuel Cells OÜ Akadeemia tee 23, Tallinn 12618, Estonia e-mail: info@powerup-tech phone: +372 5036963 Website (Website) 1.3.

PowerUP Energy Technologies partners with Meraki Green Development for Hydrogen Fuel Cell Smart Electric Generators in Greece and Cyprus New Partnership Read more. Jun 30, 2022. PowerUp is excited to announce a partnership with AS Labruna! PowerUp has signed a distribution agreement with AS Labruna which will serve as Italy's gateway to ...

"PowerUP Energy Technologies instead, is implementing the clean solution described across its whole product range exactly to cover a wide variety of use cases. The just-launched UP400 is just the beginning, as it testifies the high ...

PowerUP Energy Technologies has 5 employees at their 1 location and EUR118.8 k in annual revenue in FY 2021. See insights on PowerUP Energy Technologies including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

This 400 W generator is designed to fit your needs and offer the ultimate plug & play solution. Easy to use with a smart and compact design, the UP400 gives you energy independence. Wherever you are, this unit will allow you to charge your laptop, smartphone, radios, lights, GPS and many other devices.

Easy to use with a smart and compact design, the UP1K gives you energy independence even on small and medium-sized motor and sailing boats. With respect to boats, this unit will allow you to charge all your electrical systems depending on the output and battery backup size. Create your first micro-smart grid by combining it with batteries ...

Member - PowerUP Energy Technologies OU. Go back. Developing innovative fuel cell based portable generators for use in camping, sailing, telecom, military and much more. ... With more than 15 years of experience with fuel cell technology, PowerUP is an innovator in the fuel cell technology market. We are deeply focused in making the hydrogen of ...

PowerUP Energy Technologies | 5,287 followers on LinkedIn. Innovative hydrogen fuel cell based back-up generators | PowerUP provides clean and portable energy by delivering a hydrogen fuel cell backup generator solution, which can be used for various technologies - yachts, boats, recreational vehicles and many more.

PowerUP Energy Technologies, formerly specializing in portable hydrogen fuel cell generators, announces a strategic pivot to offer a revolutionary hybrid soluti... For over 25 years, FCW has been the go-to source for news, information, and analysis. Join our community of industry leaders and innovators. Become a Member |

Where is PowerUp Energy Technologies headquartered? PowerUp Energy Technologies is headquartered in Tallinn, Estonia. What is the size of PowerUp Energy Technologies? PowerUp Energy Technologies has 46 total employees. What industry is PowerUp Energy Technologies in? PowerUp Energy Technologies's primary industry is Electrical ...

While solar panels and wind turbines are a great source of power, their reliability is limited due to weather conditions. With our miniature smart-grid solutions you can complement your green power generation. If other methods aren't ...

Discover PowerUP Energy Technologies, the leader in portable hydrogen fuel cell generators. Offering sustainable, zero-emission power solutions for telecom, maritime, military, and off-grid applications. Explore clean energy innovations ...

PowerUP Energy Technologies" UP3K hydrogen-powered generator represents a significant step towards resilient and sustainable power generation. May 10, 2024. PowerUP Energy Technologies Introduces a First Ever Fuel Cell & Li-ion Super Battery Hybrid Solution. Dec ...

We develop and produce high-quality and sustainable energy generation products and custom energy

solutions. With more than 15 years of experience with fuel cell technology, PowerUP is an innovator in the fuel cell technology market. We ...

PowerUP Energy Technologies is an Estonian cleantech start-up that produces best-in-class hydrogen fuel cell-based electric generators and proton exchange membrane fuel cells. PowerUP's technology is based on their co-founders' 15 years of scientific research in the field of fuel cells and energy technologies.

Ivar Kruusenberg is the CEO and founder of PowerUP Energy Technologies. After a long career as the University of Tartu scientist, he is now applying his knowledge in cleantech entrepreneurship. We talked in more detail about his journey from scientist to entrepreneur, the magic and pains of starting a research company, and clean technology and ...

About PowerUP Energy Technologies PowerUP Energy Technologies is an Estonia based cleantech start-up that produces best-in-class hydrogen fuel cell based electric generators and proton exchange membrane fuel cells.
