

# Quebec energy storage enterprise

What makes Hydro-Quebec a great company?

As a subsidiary of Hydro-Quebec, North America's largest renewable energy producer, working with large-scale energy storage systems is in our DNA. We're committed to a cleaner, more resilient future with safety, service, and sustainability at the forefront -- made possible by decades of research and development on battery technology.

What is Hydro-Quebec's center of Excellence in transportation electrification & energy storage?

Hydro-Quebec's Center of Excellence in Transportation Electrification and Energy Storage is a world-class innovation hub in the field of battery materials for electric vehicles and other energy storage applications, both stationary and mobile. Presented by Hydro-Quebec's Center of Excellence in Transportation Electrification and Energy Storage

What is Hydro-Quebec's center of Excellence?

The Center of Excellence is working on a broad range of energy storage applications: not only large-scale ones, like firming intermittent renewables on power grids, but also small-scale ones like smartphone batteries. Hydro-Quebec's Center of Excellence in Transportation Electrification and Energy Storage is a global leader in battery materials.

EVLO est le fournisseur de systèmes et de solutions de stockage d'énergie par batterie grande échelle. Visitez-nous pour découvrir nos dernières innovations.
