Going solar in North Carolina is affordable and easy. North Carolina residents can also enjoy a 30% federal tax credit. And also have access to a solar-friendly utility policy called net energy metering, which is the best and most cost-effective means of crediting you for the solar energy you send to the grid when the power you produce exceeds what you need.

Whether you need solar panels for your home or you are a business looking for a new roof, we can assist you. People in the Harrisburg area have trusted ReNu for home improvement for years, and we want to help you as well. Contact us today to schedule a free energy assessment on how you can benefit from installing solar on your home or business.
