This 6-part video series covers the basics of designing a DIY off-grid solar power system and sizing its components. This first video is an overview of off-grid solar system design, and each step listed in it is covered in more detail in its own video below.

Winter months generally produce less solar power due to shorter days and lower solar irradiance. Using

## Saint Martin altstore solar

in 2011 when I bought some grounding lugs and a single ground mount for my first ever solar panel, which is a Japanese made Sharp 80 watt panel. I bought my Midnite Solar combiner box from them about two years ago as well as extra breakers.
