

Swiss energy storage company Leclanché has broken ground on a US\$70 million solar and storage microgrid project in St Kitts and Nevis. The system will include a 35.7MW solar farm and a 14.8MW lithium-ion battery ...

The world's highest-altitude solar-plus-storage project secures grid connection. December 20, 2024. The Huadian Tibet Caipeng project, at 5,228 metres above sea level, is the highest-altitude ...

Operational solar PV projects in Chile are implementing energy storage capacity, with AES Andes reaching COD of a solar-plus-storage project this week. Image: AES Andes. Solar PV in Chile is ...

The Kolda solar-plus-storage project will be AXIAN's second co-located project, and its first in Senegal. Image: AXIAN Energy. The Emerging Africa & Asia Infrastructure Fund (EAAIF), Dutch ...

Clenera expects to reach ready-to-build status at the project in the third quarter of 2025, and reach commercial operation in mid-2027, at which point APS will acquire both solar and storage ...

Australian renewable energy developer Edify Energy's 250MW Muskerry solar-plus-storage project is located 30km northeast of Bendigo in Victoria. According to project documents, the Muskerry solar plant will take approximately 12 months to construct and will have an operational lifespan of around 50 years.

Oil and gas major TotalEnergies has started operations on two solar-plus-storage projects in the ERCOT, Texas market, one with the BESS online and another set to be commissioned next year. The projects are the 720MW Danish Fields project, which is TotalEnergies' largest solar farm in the US, and the 455MW Cottonwood project.

The Northern Territory has also revealed plans to develop a renewable energy hub combining solar PV and energy storage. Image: Eku Energy. Whitehaven Energy, a subsidiary of coal producer Whitehaven Coal and renewable energy generator and retailer Pacific Blue, landed key milestones in developing solar-plus-storage projects in Australia last week.

The world's highest-altitude solar-plus-storage project secures grid connection. News. Recurrent Energy reaches financial close on 171MW solar-plus-storage site in Victoria, Australia.

In April 2023, Enerparc commissioned its first solar-plus-storage project in Germany, which was supported by the state's Innovation Tender programme, a government project to help commission 5 ...

Maintaining a varied approach for solar and storage projects in Eastern Europe, both in terms of the storage technologies being used and the financial instruments used to support projects, could ...

Victoria aims for renewable power to account for 40% of the state's electricity share by 2050. Image: Total Eren. The 360MW Mortlake solar-plus-storage project in Victoria, Australia, is the ...

The US Department of Energy (DOE) has closed loan financing for a 15MW solar-plus-storage project to be built in California, on lands owned by the Viejas Group of Capitan Grande Band Mission Indians.

A 300MW solar-plus-storage twin project is set to be developed in North Queensland, Australia, after success in the recent Capacity Investment Scheme (CIS) tender. SEIA releases solar policy ...

US independent power producer (IPP) BrightNight has received the green light from the Victoria government, Australia, for its 360MW Mortlake solar-plus-storage project. The AU\$700 million (US\$480 million) Mortlake Energy Hub recently secured a connection to the National Electricity Market (NEM) from the Australian Energy Market Operator (AEMO ...

Aside from the 100MW solar PV capacity, the Kitt Solar project is also paired with 400MWh of energy storage capacity. Arevon powers up 384MW/600MWh California solar-plus-storage site December 10, 2024

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

US developer energyRe bags US\$240 million for 108MW/198MWh solar-plus-storage project. By Will Norman. April 30, 2024. Power Plants, Financial & Legal, Projects. Americas. Latest.

Iberdrola Australia, a sub-division of utility giant Iberdrola, has commenced construction of a 376MW solar-plus-storage project in Queensland. The Broadsound Solar and Battery, the organisation ...

Around 1,300,320 solar PV modules will be installed, and the project will also include a co-located battery energy storage system (BESS); however, the capacity of the battery storage system has ...

A 300MW solar-plus-storage twin project is set to be developed in North Queensland, Australia, after success in the recent Capacity Investment Scheme (CIS) tender. Subscribe to Newsletter.

600MW solar-plus-storage project in New South Wales secures federal approval. By George Heynes. September 10, 2024. Projects, Power Plants, Storage. Asia & Oceania, Southeast Asia & Oceania.

Edify owns the 333MWp Darlington Point solar project in New South Wales (above). Image: Edify Energy. A 300MW solar-plus-storage twin project is set to be developed in North Queensland, Australia ...

Solar plus storage projects Saint Barthélemy
