Solenergy was commissioned to design, build, and maintain a 4kW solar power system for LANDBANK in Pampanga. Projected to produce 5,715 kWh of power per year, the government owned bank is making a pioneering statement in tapping renewable energy for their small commercial space. Location: San Fernando, Pampanga ; System Type: On-Grid

Solar power in the Philippines is an especially prolific source of energy in the country due to the abundance of natural sunlight and heat. As a tropical country, that comes as no surprise. Lucky too, as that makes investing in solar energy a truly viable option; one that not every country in the world can enjoy to the fullest due to their differing climates.
