

South photovoltaic panel installation manufacturer address

Where do you install solar panels in South Wales?

From our Cardiff base, we regularly install, design and maintain solar panel systems across South Wales including Newport and Swansea, and further afield in Bristol. Our solar panel installations are backed by HIES, the Home Insulation and Energy Systems insurance backed guarantee and all our installation teams are fully MCS accredited.

Who are solar panel installers?

Solar Panel Installer - We are an Independent South West based UK Company that are not tied to any brand and offer impartial advice to suit your property. You choose the brands and products - we advise you! We are an independent Solar Panel installation company and therefore quote each customer individually depending on their needs.

Who is solar south west?

We believe in a clean & sustainable energy future for the UK. Based in Somerset, we operate throughout the country. Through our professional approach, we will assist you with your solar energy project. Why choose Solar South West? We installed the first 1MWp roof-top solar array in the UK, and have grown with the industry.

Are solar panels a good investment in the south west?

Thanks to some of the highest sunlight levels in the UK, properties in the South West of England are perfectly positioned to benefit from a Solar PV Installation. Take advantage of all that free energy with our Solar PV Panels that can power your property for 20+ years.

Why should I install solar panels in South England?

South England Solar can help with this. Installing solar panels to your house will not only reduce your electricity bills, but also increase the value of your home. Providing you with a clean, emissions-free, renewable energy source. Do I need a south-facing roof for Solar Panels? Do I need constant sunshine for my Solar Panels to work?
