

Switzerland off grid solar container

For larger multi-megawatt plants, a multi-container design approach has also been configured which is able to house multiple inverters, battery banks and the required switch gear. These systems are perfectly suited for many commercial, industrial, agricultural and off-grid village electrification projects.

you would probably be better off with a mobile-home or a "tiny house" on a trailer. some of them can get pretty big. a tiny house plus a shipping container for storage could be moved pretty well from one place to another. set it up a bit like an RV at first and then you just have to worry about local rules about living in an RV. you may have to make it "permanent" by hooking up to a ...
