A private fund managed by BlackRock Real Assets agreed to buy a 115MW solar portfolio comprising 14 projects in Taiwan from New Green Power (NGP) and J& V Energy Technology (J& V Energy), an announcement revealed. This marks the fund's second renewables investment in Taiwan after acquiring a solar portfolio from J& V Energy in August last year.

A short and very rich article. It was initially hard to see that the article would be about a Taiwan company supplying cheap solar panels for Starlink. Starlink satellites reportedly used silicon-based solar cells, traditionally used for terrestrial applications, instead of the III-V compound solar cells more commonly used by the space industry.
