Don't miss this opportunity to gain valuable knowledge and stay ahead of the game. ... Energy Storage Spain 2023, Romania 2024, France 2024. Prior to Solarplaza she helped co-found a &quot;floating&quot; coaching company, and ...

As the energy storage sector continues to grow, securing financing for Battery Energy Storage System (BESS) projects is becoming more complex yet critical to success. This session will dive into the evolving financial landscape for BESS, exploring various financing models, risk management strategies, and key factors that influence investor ...

George is a Manager in JLL's Energy & Infrastructure Advisory team specialising in M& A and capital raising across EMEA. Primarily focused within the UK & Ireland and Germany, he has advised on over 2GW of transactions across the asset lifecycle including BlackRock's maiden investment into a battery storage platform and the largest operational BESS disposal in Europe.

A wide range of opportunities is available to build and promote your brand to a diverse, yet focused group of high level international and local stakeholders including investors, financiers, project developers, EPCs IPPs and manufacturers.

Mikel Pino is a chemical engineer, master in renewable energies and PhD into battery energy storage with more than 12 years fully devoted to energy storage and new energy businesses. He has participated in the whole value chain of BESS from new battery technologies R& D, up to business modelling, procurement and contracting.

He focuses on clean energy technologies in Europe, Middle East and Africa and has a particular interest in how energy storage integrates with other industries. He has recently published work on recycling, energy storage for EV charging, vehicle-to-grid technologies, second life batteries and the use of batteries in hydrogen production.
