Who is Hyperion solar?

Hyperion Solar's module workshop. Image: Hyperion Solar. American Hyperion Solar, a subsidiary of Runergy, has announced that it has signed a long-term supply contract for 1.65GW of modules with a leading US utility developer, marking a significant milestone for the brand in the US market.

Does Hyperion solar have a long-term supply contract?

American Hyperion Solar has announced that it has signed a long-term supply contract for 1.65GW of modules with a US PV project developer.

Who owns Hyperion?

It is a milestone for the rapid expansion of the Hyperion brand, owned by Chinese firm Runergy, in the US market. Hyperion is headquartered in California and has established production facilities in the Rayong and Pathum Thani provinces of Thailand.

What does Hyperion's PERC supply contract mean for US customers?

The 1.65-GW supply contract will showcase Hyperion's high-power and high-quality H1 Series PERC modules, which have great aesthetics, lower degradation and superior low light performance, says the company. US customers can expect a low levelized cost of energy (LCOE), the company claims.

Does Hyperion have warranty insurance?

Hyperion's plants have passed a strict factory audit conducted by Munich Re, says the company. This approval provides long-term, back-to-back product warranty insurance for Hyperion's utility customers.
