

Weather proof enclosures Guinea

Can guinea pigs be kept outside?

The enclosed room can uphold your guinea pig's privacy and comfort. Now you can leave your animal safely outside this hutch, made from 100% fir wood and a strong latch, can assist you with trusted safekeeping with coziness. This guinea pig cage has an asphalt roof, making the product weather-proof, suitable to be kept outside.

Can you take guinea pigs outside if it's not rainy and cold?

Yes, you can take your guinea pigs outside if it's not rainy and cold. Guinea pigs cannot stand harsh weather conditions. Besides, if you let them outside when it's raining or after rain, they can catch a cold and get seriously ill. Keep your guinea pigs safe in an enclosure at all times!

How to keep guinea pigs from escaping?

Breaking out (and in): To prevent the guinea pigs from escaping, the base of the fence should be set into the ground. A roof will provide protection from both rain and predators. Care: To allow you to look after the guinea pigs and visit them (several times a day), the enclosure should be easily accessible to you.

Are outdoor enclosures a good idea?

The outdoor enclosures sold in retail outlets are too small and are unsuitable for constant use outside. However, if you have some DIY skills, you can build an appropriate enclosure out of wooden slats and fine-mesh fencing wire or chicken wire.

Does a guinea pig Hutch have air vents?

The hutch is heavily secured from all sides with anti-corrosion, UV-resistant sides made of 100% natural material. You can rest assured that your pet won't die of suffocation as the hutch comes with dual air vents to provide fresh air to your guinea pig.

They are very rarely big enough for the ideal size requirements for guinea pigs. A cage of this type can be useful if you have an injured, sick or recuperating guinea pig, if they need a quiet and safe space to recover alone (For example, we have a 120cm long cage of this type in the loft for such emergencies, but would not use it day to day).
