

Yemen solar panel for 3 bhk flat

Divide the average monthly power to calculate the number of solar panels in a kilowatt. Generation by the average monthly power consumption (900 kWh / 115 kWh = 7.82 kW of solar panels). Divide the 7.82 kilowatts of solar panels by each solar panel's wattage, which is 330 watts. 7,800 watts / 330 watts = 23.63, or around 24 solar panels.
